- Click [HERE](#) or type <http://nstifestival.ae> or search for NSTI Festival in google to access the main NSTI website.
- Go to Emirates Young Scientist page by clicking "EYSC" on the top bar.

The screenshot shows the website for the Emirates Young Scientist Competition. At the top, there is a navigation bar with the UAE Ministry of Education logo and the text 'UNITED ARAB EMIRATES MINISTRY OF EDUCATION'. The main banner features a large image of students and a prominent 'REGISTER NOW' button. Below the banner, there is an 'Overview' section with the following text:

Overview

The Emirates Young Scientist Competition is the centerpiece of the National Science Technology and Innovation (NSTI) Festival, offering a premier platform for students in grades 5 to 12 to showcase their scientific ideas, projects, and research in a science fair setup. Held annually in Dubai, this prestigious competition promotes a passion for science, technology, engineering, and mathematics (STEM) by encouraging students to apply scientific methodology and present innovative solutions. With participation from students in public, private, and vocational education sectors, the competition fosters creativity, critical thinking, and problem-solving skills, all while nurturing future leaders in the fields of science and technology.

Featuring 23 monetary awards, including special awards from government and private entities, the competition recognizes outstanding achievements in various STEM disciplines. The top 100 projects are showcased and evaluated during the five-day NSTI Festival, giving students the opportunity to present their work to esteemed judges and experts. Through this competition, students are empowered to take their passion for science to the next level, gaining valuable experience that supports their educational and professional aspirations, while contributing to the UAE's vision of a scientifically advanced future.

- Click “**REGISTER NOW**” in the main banner OR scroll down and read all the details and click the registration button at the bottom of the page.

Notes:

- This step should be done by the project’s supervisor NOT the student.
- The supervisor will register students in the next steps and assign them to their projects.

- Login with your email and password.
- Make sure you select “Emirates Young Scientist Competition” from the list.
- You can always come back to this page by clicking “Login” in the top bar.
- In case **you didn't receive an activation link** or you forgot your login credentials click “Lost your password?”

- After you login, proceed to “**Projects Dashboard**” to submit and manage your projects.
- If needed, you can modify your personal details from “My Profile” in the top bar.

Overview

The Emirates Young Scientist Competition is the centerpiece of the National Science Technology and Innovation (NSTI) Festival, offering a premier platform for students in grades 5 to 12 to showcase their scientific ideas, projects, and research in a science fair setup. Held annually in Dubai, this prestigious competition promotes a passion for science, technology, engineering, and mathematics (STEM) by encouraging students to apply scientific methodology and present innovative solutions. With participation from students in public, private, and vocational education sectors, the competition fosters creativity, critical thinking, and problem-solving skills, all while nurturing future leaders in the fields of science and technology.

Featuring 23 monetary awards, including special awards from government and private entities, the competition recognizes outstanding achievements in various STEM disciplines. The top 100 projects are showcased and evaluated during the five-day NSTI Festival, giving students the opportunity to present their work to esteemed judges and experts. Through this competition, students are empowered to take their passion for science to the next level, gaining valuable experience that supports their educational and professional aspirations, while contributing to the UAE's vision of a scientifically advanced future.

- Click “Submit a new project” to go to the project proposal page.
- All the projects you register will appear in the table below “My Projects”

The screenshot shows the user interface of the Emirates Young Scientist Competition (EYSC) system. At the top, there is a header for the United Arab Emirates Ministry of Education with navigation links for 'My Profile', 'Projects Dashboard', and 'العربية'. The main content area is divided into two sections: 'My Projects' and 'My Students'. In the 'My Projects' section, a green button labeled 'Submit a new project' is circled in yellow. Below it is a search bar and a filter dropdown set to 'Year = 2025'. The 'My Students' section contains a list of instructions and a purple button labeled 'Register a new student to the system'. A yellow arrow points from this button towards the right side of the image. The footer includes the NSTI Festival logo and navigation links for Home, EYSC, Next Founder, Kidspreneurs, Conference, and Family Festival, along with social media icons for Instagram, Twitter, TikTok, and YouTube.

- You can register ALL your new students to the system Here or within the Project Proposal Page.
- All students you register will appear in the table below “My students”

Project Submission

- In this page, you can create a project and assign student(s) to it.
- Fill the details of your project proposal below and click "Create".
- The "Students List" window will appear next to the project proposal form AFTER project creation.
- Register your student(s) to the system first.
- Select the correct student(s) for the project from the drop down list.
- ONLY Students who belong to the same age group as the one selected for your project will be displayed in the dropdown list.
- You MUST click "Assign this student to the project" for each student you want to assign.
- Make sure the student(s) in the generated table are the correct ones for this project.
- You can "Remove" or unassign students by clicking the red 'X' next to their name in the table.
- Removing or unassigning students will NOT delete them entirely from the system.
- Before the deadline, you can modify phase 1 fields after submission by clicking "Apply Changes".
- PHASE 2 of the project submission will appear in this page on November 17, 2024 ONLY for QUALIFIED projects.

Phase 1

Project Proposal Form

Scientific Category (based on the core research focus and value)

Project Category

Age Group *

Intermediate (Grade 5-8) Senior (Grade 9-12)

Number of students *

Individual Project Group Project - 2 students Group Project - 3 students

Project Title

Your title is key to capturing the audience attention. A strong title should clearly and accurately represent your research. Projects with titles like "Smart City" or "My Companion" will be disqualified

Project Title

Project Overview

It should be (250-500 words) and include a short summary of your project. If someone reads this summary they should understand what the student is setting out to achieve

- After clicking "Submit a new project", fill the Project Proposal Form and click "Create" at the end of the form.
